## INTRODUCTION

Dedicated to immersing our little InterContinental travellers in the beauty of the Whitsundays and connecting them with their island location, Planet Trekkers Kids Club offers a programme of tailored services and activities for children aged between 4-12 years old.

Each day in Planet Trekkers Kids Club is different with each activity designed to support children's growth, curiosity and creativity, while balancing their time indoors and outdoors. Our secured indoor club engages little ones with sea shell painting, fish-shaped cookie baking, and dance games, while outdoor sessions see children connect with nature; building sandcastles, making friends on a buggy safari, exploring marine life on our guided nature walk and so much more.

With caring club organisers leading the pack, you can indulge in reconnection time, knowing that your kids are happy, fulfilled and experiencing an adventure of their own.

## HIGHLIGHTED ACTIVITIES

### FISH FEEDING

Kids get up close and personal with Hayman Island's tropical fish as carers take them down to the marina to watch our activities team feed an array of friendly tropical fish including Giant Trevallies, Yellow-Tailed Fusiliers, Mangrove Jack and more. An experience that must be seen to be believed.

### BEACH GAMES

Play on pristine sands and splash in Whitsunday waters while enjoying an array of outdoor activity including bowling, relays, sandcastle building and more. Designed to immerse kids in island surrounds while getting excitement pumping with group activity and friendly competition.

### ARTS & CRAFTS

Our indoor Kids Club offers a vast array of arts and craft inspired creative classes including kite building, designing postcards, making seashells out of clay, painting, cookie baking and more.

### COCONUT BOWLING

Inspired by the island's swaying coconut palms, we have designed an outdoor activity sure to excite. Guided by our carers, kids will embark on a search across the island for coconuts before engaging in a fun-filled bowling competition on Coconut Grove.

### KIDS RELAXATION AND STRETCHING

Promoting balance, flexibility and calmness, our attendants run an adapted kids relaxation and stretching class that will allow little ones to experience a new form of exercise, focus on their breathing and find a peaceful centre in the idyllic tropical surrounds.

### SEA CREATURE CREATIONS

Designed to connect little ones with their destination and immerse them in learning about Hayman Island's vast wildlife. Each kid will be given a template of Hayman Island before being asked to colour and decorate it with sketches of sea animals which they believe live in Hayman's surrounding ocean.
